

Live Action Undercover Video Exposes Just How Rampant Late Term Abortions Are

April 28, 2013 by Tim Brown

Live Action has released another shocking video, in which they are exposing the rampant procedures of late term abortions. At Freedom Outpost, we call them murders. **Barack Obama recently said “God to bless you Planned Parenthood” (obviously he was talking about the false god, Allah, of the bloody, death cult religion of Islam).** The video is the first in a series titled *Inhumane: Undercover in America’s Late-Term Abortion Industry*.

The video was captured at the Dr. Emily Women’s Health Center in the Bronx. The undercover investigator was seeking an abortion at 23 weeks. New York allows abortions to be performed until the 24th week and deems them legal.

Gosnell is not alone. Videos document the blatantly inhuman and barbaric acts of abortionists leaving crying babies to die, or even killing the newborns themselves.

Live Action President Lila Rose Tweeted out:

Lila Rose @LilaGraceRose

@DRUDGE Some of the most shocking, heartrending undercover footage we've captured yet: ow.ly/kuQiL

Rose also said in a statement:

“The gruesome and inhuman practices exposed in Gosnell’s ‘House of Horrors’ are business as usual for the abortion industry in America. These children’s lives are brutally destroyed when they are the most defenseless. This isn’t ‘choice’; this is murder.”

What you are about to see here will make your skin crawl and it’s not because it is graphic in video, but in description and the callousness by the women filmed explaining the barbarism associated with these murders is horrific. How can we allow such people to even walk the streets among us? Their ability to try and justify and rationalize their murderous actions are, as Live Action notes, inhuman.

In the video the counselor describes how the “**fully grown**” fetus will be sucked out with a “sucking tool that they hold, and it sucks it in” and how it will begin to come out in pieces because it will “start falling apart.”

If the fetus comes out in one piece, however, they put it “in a jar — a container, with solution,” the counselor says, adding that everything that comes out in an abortion has “to go to the lab” to be disposed of.

Should the baby be “**twitching**” the counselor explains that “the solution will make it stop” which “is the whole purpose of the solution.”

Should the child be breathing, it will make it stop as well. “It will automatically stop. It won’t be able to breathe anymore. Not in the, not with the solution.”

When asked if the solution is “**toxic**,” she answers in the affirmative, noting that she has been working for the clinic since she was sixteen years old.

Additionally, the counselor advises the investigator to “put it in a bag” and bring it into the clinic if she delivers at home. Of course, should she “**flush it**” if the investigator goes into labor before returning to the clinic and tells her to “make sure that everything came out.”

This video indicates that these late term murders are not what America has been told. They are not “safe or rare,” and in many cases they are not even legal. In fact, it appears they are quite common. You see, people, when you allow evil like this to start, it will only grow. My father use to say, “Give him a rope and he’ll want to be a cowboy.” Well the abortion industry was given a rope long ago for certain “situations,” which should have never been performed, and now they are hit men for hire and they want to murder babies in the womb at early terms, late terms, and as we’ve [seen in the Gosnell trial](#), when they are a born.

Even worse is that elected representatives support their efforts and the man in the oval office, who is supposed to be the chief law enforcement officers, ignores the law, continues to fund organizations like Planned Parenthood and openly endorse infanticide!!!

God says that those who shed innocent blood are an abomination to Him (**Proverbs 6:16-17**). We can no longer tolerate such sinful and wicked actions in this nation. We must wipe it out and plead for God’s mercy.

Also www.factsoffait.org said; Also found in **Jeremiah 1: 5**; God told Jeremiah, “Before I formed thee in the belly I knew thee; and before thou camest forth out of the womb I sanctified thee...” So what does Sanctified mean? It simply means to set apart.

Under the **Born Alive Infants Protection Act** which says: “Any Child born in the United States including a survivor of a failed abortion attempt is guaranteed the full rights and legal protection of citizenship and entitled to life-saving medical care.” In 2002, Born Alive passed unanimously in the U.S. Senate and by overwhelming voice vote in the House. On August 5, President George W. Bush signed the bill into law.

President Signs Born-Alive Infants Protection Act

Remarks by the President in Signing of H.R. 2175, Born Alive Infants Protection Act
Pittsburgh Hilton
Pittsburgh, Pennsylvania

12:58 P.M. EDT

THE PRESIDENT: Well, thank you all very much for this bill signing ceremony. I'm pleased to sign it in the great city of Pittsburgh, Pennsylvania. The history of our country is the story of a promise, a promise of life and liberty made at our founding and fulfilled over the centuries in our laws. **It is a story of expanding inclusion and protection for the ignored and the weak and the powerless. And now we extend the promise and protection to the most vulnerable members of our society.**

Today I sign the Born Alive Infants Protection Act. This important legislation ensures that every infant born alive -- including an infant who survives an abortion procedure -- **is considered a person under federal law.** (Applause.) This reform was passed with the overwhelming support of both political parties, and it is about to become the law of the land.

I appreciate so very much Senator Rick Santorum and Congressman Steve Chabot from Ohio for sponsoring this important piece of legislation. I also appreciate Senator Arlen Specter of Pennsylvania and Congresswoman Melissa Hart for coming, as well. I want to thank the Bishop of the Diocese of Pittsburgh, Bishop Wuerl, for being here. It's good to see you again, Bishop. I appreciate Hadley Arkes, the Professor of Jurisprudence and American Institutions at Amherst University. I want to thank Jill Stanek, registered nurse, Labor and Delivery Unit, Christ Hospital and Medical Center, for being here, as well. I appreciate Gianna Jessen, who is an abortion

survivor and a pro-life advocate. I want to thank Dr. Watson Bowes, who is a Professor Emeritus of Gynecology and Obstetrics at the University of North Carolina.

I want to thank you all for coming. It's important that you're here, to send a signal that you're dedicated to the protection of human life. The issue of abortion divides Americans, no question about it. Yet today we stand on common ground. The Born Alive Infants Protection Act establishes a principle in America law and American conscience: there is no right to destroy a child who has been born alive. (Applause.) A child who is born has intrinsic worth and must have the full protection of our laws.

Today, through sonograms and other technology, we can clearly -- see clearly that unborn children are members of the human family, as well. (Applause.) They reflect our image, and they are created in God's own image.

The Born Alive Infants Protection Act is a step toward the day when every child is welcomed in life and protected in law. (Applause.) **It is a step toward the day when the promises of the Declaration of Independence will apply to everyone, not just those with the voice and power to defend their rights.** This law is a step toward the day when America fully becomes, in the words of Pope John Paul II, "a hospitable, a welcoming culture."

Our society has enough compassion, wealth and love to care for mothers and their children, and to see the promise and potential of every life. In protecting the vulnerable and the weak, the imperfect and the unwanted, you are affirming a culture of life.

I'm grateful for your perseverance on behalf of this noble cause. I want to thank you for your hard work. I appreciate your care for every member of the human family. Thank you for coming today. It's now my honor and pleasure to sign into law the Born Alive Infants Protection Act. (Applause.)

(The act is signed.) (Applause.)
