

## SQUASH CASSEROLE

(Vegan Recipe)

3 cups cooked squash

½ cup Veganaise

1 med. onion, finely chopped

½ cup grated vegan cheese

Salt and a bit of cayenne pepper to taste

A package tofu, mashed very well (replaces egg in original recipe, and adds a bit of nutrition)

Fried onions for garnish (optional)

**Directions:** Cook squash until tender in water. Drain well. Combine all ingredients, mixing well. Spoon into casserole sprayed with cook spray or greased with a bit of oil. Top with fried onions if desired, (could crush corn flakes with melted margarine and use for topping.)

**Bake** at 350 degrees for 30 minutes or until well set. When bringing to fellowship meal, I cook the casserole that long covered in foil then put in oven here (At Church) to heat up and cook a tad more.
